EDUCATION

Texas A&M University   **Expected Graduation 2027**
- Major: General Engineering
- Relevant coursework: ENGR-102 Engineering Lab I - Computation

Austin Community College   **Expected Graduation 2024**
- Texas A&M Engineering Academy at ACC

Stony Point High School   **2021 - 2023**
- GPA: 3.91, Class Rank: 69/597
- Relevant coursework: AP Computer Science Principles, AP Computer Science A

Code2College Alumni   **2022 - Current**

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, HTML/CSS/JavaScript
Development Tools: Jira, Azure DevOps, GitHub, Terminal/Command Prompt, Canva
Spoken Languages: English, Filipino (Ilonggo, Tagalog), Spanish

PROFESSIONAL & TECHNICAL EXPERIENCE

Arrive Logistics   **Jun 2023 - Aug 2023**
Software Engineer Intern

Project: Reduced engineer cognitive workload and relieved Arrive Logistics engineering teams 1-2 developer days per sprint by constructing a subcommand of Arrive Logistics' Internal Development Platform: Surge. The subcommand *surge new*, automated the beginning stages of development, testing, and deployment of applications.
- Specialized in DevOps and Automation
- Developed an understanding of Kubernetes, Docker containers, and Azure CI/CD pipelines
- Attained proficiency in professional software development practices such as scrumban methodology and documentation
- Presented project to Arrive Logistics platform org, at a learning and sharing session, and Code2College board of directors

Code2College   **Sep 2022 - Current**
Participant

Elite 102 - 4-week programming course intended on emulating the workflow and rigor of a software engineering internship
- Project: Developed a fullstack banking application, complete with a GUI and database using Python and SQL

Elite 101 - 8-week programming course familiarizing students with collaboration in software and tools like GitHub, Jira, and Miro
- Project: Python chatbot for restaurant with features like order-taking, natural language order processing, and receipts

Bootcamp - 9-week programming course introducing software engineering rules and concepts
- Attended professional development workshops such as business communication and resume building

TruBoba Cafe   **Jul 2021 - Current**
Deputy Chef
- Established myself as a keystone employee with leadership skills, professionalism, and integrity
- Aided in growth of business by working food festivals and through personal projects involving web development
